TECH SOLUTIONS

POWER

A comprehensive range to
power your applications

Powering technology and future development

Conexa Tech Solutions is a specialist in the power conversion arena offering an extensive range of products and technical consultancy. Our product offering has been developed to cater for a wide range of market sectors including industrial, medical, IoT, Transport & infrastructure, automotive, renewable energy and consumer.

Our Product Range

AC/DC		DC/DC	
	Din Rail 15W - 480W	Enclosed 10W - 250W	
	Chassis Mount 15W - 1500W+	Openframe 3W - 250W	
	Board Mount 2W - 90W	Brick 10-400W	
	Openframe 3W - 550W	Fixed input Regulated & Un-regulated 0.2W - 3W	
	Desktop 18W - 300W	Wide Input 1W - 400W	
	Plugtop 5W - 65W	Switching regulator 0.5A - 20A	
	Battery Chargers 36W - 120W	Photovoltaic Power 3W - 350W	

Capability and Product Development

Our Partners are some of the largest and most innovative manufacturers on earth. They have literally thousands of patent applications between them and spend millions on R&D per annum. Combined, they contribute over 9000 product lines, combining the latest technology and leading manufacturing techniques. As a team our goal is to marry the most appropriate technology to the application and deliver the perfect customer solution each and every time.

Our Core Values

Technical

We strive to be experts, offering a consultative approach to our customers. Our engineering backgrounds coupled with

extensive industry knowledge ensures a true understanding of every product or end to end solution we deliver.

Innovation

We are passionate about innovation and bringing the latest technology to market. Our talented leadership team have unrivalled expertise from

across the technology ecosystem ensuring we raise the bar on the value we deliver.

Trust

Our team embraces accountability at the highest level to ensure an open and honest working

environment. This helps cultivate creativity and brings value to our customers and vendors, driving outstanding results.

Responsive

Responding quickly and positively to all challenges can mean the difference between success and failure. Our dynamic style means we

can adapt quickly to maximize results for our partners and our business.

Collaboration

Individual ownership and collaboration come together naturally for us. We leverage our collective expertise, listen well,

support and inspire, so we do more than just achieve our goals – we do great things.

Case Study ~ Power Supplies for Rail Transit

Our customer required a high power, rail approved, rugged DC/DC converter. Specialised requirements along with very strict tolerances on operational specification mean experience, knowledge and a highly capable supplier are absolutely key. The client identified the team at Conexa Tech Solutions as a business that has significant previous experience in this area and could definitely deliver a product of this type.

Following our initial meeting and brief, we worked with the client to quickly identify the product options that met with the correct specification needs and ensured a perfect fit on all fronts. Our client was (as they often are) amazed that in this instance we did not need to go down the expensive and time consuming journey of a custom power supply (and subsequent approvals).

The journey from first conversation to final client approval was around 75% faster and 35% lower cost than our competitors. Experience in this industry is hard earned over decades and our team have a wealth of knowledge which our clients can always tap into without any additional cost.

EN50155 Compliant

- Station
- On-board
- Trackside

About us

In an industry where many of the traditional power supply providers have been previously acquired and forced to operate within much larger, faceless organisations or kitting houses, we bring a breath of fresh air. We are agile, autonomous and driven only by a will to deliver excellence. We remove barriers, provide personal support and we use this approach to bring the best and newest technologies to market to wholeheartedly support our customers growth.

We believe that Agility + Experience = Innovation

What drives us?

We empower our global partners to achieve great outcomes with technology. We integrate technologies, knowledge and practices in our core fields to unlock their combined potential for all.

Our flexible approach enables our customers to choose what is right for them whilst providing on hand technical consultancy every step of the way.

Discover the advantages of Conexa Tech Solutions' technical knowledge, support and best in class products and experience it for yourself!
